

**AMENDMENTS TO THE SPECIFICATION:**

Page 34, paragraph [004] the fourth sentence, is replaced with the following new sentence:

The circumference of the inner hole of the top plate **946** is slidably engaged with the outer circumferential surface of the upper valve guide **962** so that the top plate **946** can slidably move upwardly and downwardly along the vertical axis of the valve guide **962**.
